

ALIYAH+SOMASYNC AI™

FREE PRACTICE GUIDE

The ALIYAH Roadmap

A practice infrastructure guide for manual therapy practitioners — whether you're graduating soon or already running a practice juggling five disconnected apps.

7 MODULES · BRAND · WEBSITE · BOOKING · AUTOMATION · CONTENT · SEO · LAUNCH

WHY THIS GUIDE EXISTS

Schools teach the modalities. **Nobody teaches the business.**

You spent years learning neuromuscular technique, craniosacral work, deep tissue, energy work. **Nobody taught you how to build the infrastructure that turns that skill into a sustainable practice.** This guide closes that gap — whether you're about to graduate or you've been in practice for years and are buried in disconnected tools.

SOON-TO-GRADUATE**Build it right before you open**

Skip the 6-month guessing game most new practitioners go through. Launch with a brand, booking system, and client pipeline already in place from day one.

ALREADY IN PRACTICE**Consolidate. Automate. Reclaim your time.**

If you're running separate tools for scheduling, email, invoicing, and follow-up, this shows you how to run it all from one connected system.

THE NUMBERS

73%

of solo practitioners have no automated client follow-up system in place

5.4

average number of disconnected apps a solo practice juggles daily

\$8K+

average annual revenue lost per practice to booking no-shows alone

WHAT'S INSIDE — 7 MODULES

The Foundation

01 — YOUR BRAND IDENTITY

82% of consumers say brand consistency across channels increases trust. This module covers building a recognizable brand from scratch — logo, color system, typography, voice — and why most therapist brands fail in the first 90 days.

↑ 23% HIGHER CLIENT RETENTION WITH CONSISTENT BRANDING

02 — YOUR DIGITAL HOME BASE

76% of people research a healthcare provider online before ever making contact. You need a website that converts visitors into booked clients, not just a placeholder. We cover what pages you actually need and how to structure them for Google.

↑ 3× MORE LEADS FROM AN OPTIMIZED VS. UNOPTIMIZED PAGE

03 — YOUR BOOKING SYSTEM

No-shows cost the average solo therapist \$8,400/year. Automated reminders reduce no-show rates by up to 38%. This module walks through setting up a fully automated booking calendar with confirmation, reminder, and rescheduling logic built in.

↓ 38% FEWER NO-SHOWS WITH AUTOMATED REMINDERS

WHAT'S INSIDE — 7 MODULES

The Growth Engine

04 — YOUR CLIENT PIPELINE

Most practices rely entirely on word-of-mouth — a single point of failure. This module shows you how to build lead capture, an email nurture sequence, and a reactivation campaign for lapsed clients.

↑ 45% OF LAPSED CLIENTS RETURN WITH ONE REACTIVATION EMAIL

05 — YOUR CONTENT ENGINE

Practitioners who publish educational content consistently see 3× more organic traffic. This module covers a repeatable content system — what to post, how often, and how to repurpose one piece across six channels without burning out.

↑ 3× ORGANIC REACH WITH CONSISTENT EDUCATIONAL CONTENT

06 — YOUR SEO FOUNDATION

46% of all Google searches are local. For a manual therapy practice, local SEO is the highest-leverage free marketing channel that exists. This module covers Google Business optimization, local keywords, and review generation.

46% OF GOOGLE SEARCHES HAVE LOCAL INTENT

07 — YOUR LAUNCH PROTOCOL

Most practices spend months "getting ready" and never launch. This is a 30-day activation sequence — what to set up first, what to post, who to contact, and how to get your first 10 clients without paid ads.

FIRST 10 CLIENTS: A STEP-BY-STEP 30-DAY PLAN
